COMPANY BRIEF

Company proprietor started working since 1976

Company proprietor education B.E Mechanical

Started making water pump aluminum patterns and mould

He started working him self and than slowly came up with team

Company name was register since 1982

Products

Pattern Manufacturers

Pump Spares

CNC precision Machining

Casting

Customize pump parts

All kind Of Engineering parts

Pattern Manufacturer

I heard about pattern in the year 1976, when people called it as PHARMA. At that time the working style was very easy, but how to develop the pattern with a drawing that was too much difficult for us. After having a wide experience of more than 44 years in this industry we are capable of manufacturing any types of patterns.

Types of Patterns

1. Wooden Pattern

2. Aluminium Pattern

a. Hand Moulding Type

b. Machine Moulding Type

3. Shell Moulding Pattern

a. Core shatter die

b. Core shooter die

Aluminum Die

a. Gravity Casting Die

b. HPDC Die Up to 400 tones

Machining

Our organization is well equipped with latest & modern machineries like Conventional Lathe Machines, CNC Turning Center , Drilling Machines & also Pantograph Machines. We are also having HAAS - Brand Turning Center (SL - 10) (VF2) VMC Machine and We do have Yu-Shine VTL to do the machining job work as per clients technical drawings & specifications.

Harihar Pattern Industry

A common vision to satisfy the needs of customers worldwide motivates the skilled professionals at Harihar Pattern Industry to make new ideas work and to deliver and market innovative products. Harihar Pattern Industry customers get complete back-up support and the confidence of companies Quality assurance.

- To continue as a highly respected global company.
- To become a leader in the manufacturing industry.
- To sustain our reputation for providing customer delight

It gives an immense pleasure to introduce ourselves our Harihar Pattern Industry a certified company as one of the leading manufacturer of Pattern Manufacturers Pump parts Machining Castings Consulting products. Prime Quality of supply is not an event of chance, It is a constant effort of hard-work. we believe in working effectively and efficiently to deliver products that fully satisfy our customer's need. Prime quality products which is companies motto and total conformance to high standard of quality industrial products in full range. Harihar Pattern Industry has the inclination to have sound business ties and will very much appreciate to receiving your valued inquiries. We are committed to render you better services with prompt attention at all the times.

Management

The company has been maintaining a pacesetter for the future times. Companies main concentration is totally on the development of technical support quality product for the international and Indian markets. Companies aim is to achieve the goal of the nation and by taking our country to one of the most subsidized and industrialized zone. The company is also maintaining a total quality management programmed.

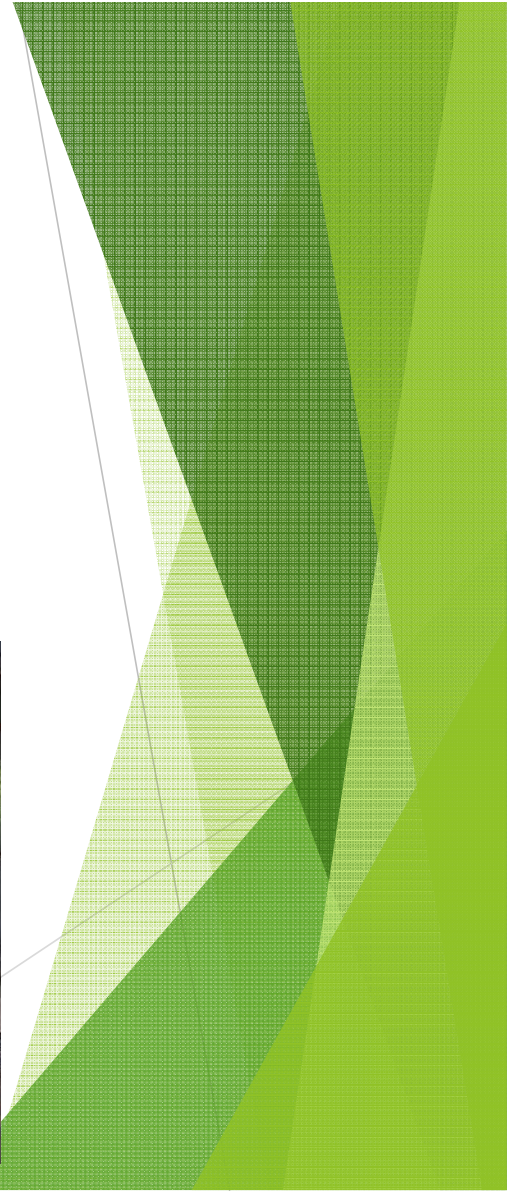

Marketing, Distribution & Service Network

Marketing strategies are also conducted from time to time. Company maintains its laboratory & other management sectors and many others at each levels. Excellent, efficient, and talented engineers have a regular visit to provide training and dynamic demonstration programs to the clients.

Pump Spares

We are also attached with the manufacturing of pumps spares like impellers & impeller casing (Bowl or Pump Body). But we can develop any types of pump parts according to your specific technical requirements feel easier with us we are having our inhouse facilities for pattern making, casting & machining.

Casting

We are having PIT Furnace for ferrous & non ferrous castings, we are using facilities for our patterns & spare parts. Also we have 100 KG induction furnace only for ferrous graded castings for pump parts. We can also manufacture any machine parts which come in our range.

Aluminum Parts:HPDC /GRAVITY

Quality

Quality Objective :

Quality has played an important role in every surface of our business activity. The basic objective of the company's team management is to get and supply only that quality products which can get the customer's necessary & essential requirement as per international standards of performance, quality, & reliability.

Quality Policy :

The companies Quality policy is to maintain an efficient and specified Total Quality Management Program developed and saturated in comparison with other management concepts, to see that the client's product and quality requirements are maintained, and to obtain promising and persistence in the quality of products. Computer aided machineries and talented and experienced people ,who has a constant watch on product and quality at each levels of manufacturing.

Research & Development

Devoted to the growth of the industry, one of the cornerstones of the company's advancement is its groundbreaking and result-oriented R & D Center.

Harihar Pattern Industry has the privileged distinction of being one of the few sectors of its kind in India, committed to product improvement. New product development has been the shove of research and development activities. Harihar Pattern Industry is determinedly concerned in developing a variety of import substitutes, which over the years have been documented and authorized by the world-renowned manufacturers.

Exports/Network

Exports inquiries are generated from various parts of the world for supply of different types of products. Presently the global market situation is being assessed and the strategy is reorganized to suite the demands of the global requirements.

List Of Customers:

1 American marsh pump (USA)

2 Wilo pump LLC (USA)

3 Groove machine & fab (USA)

4 Wurth (USA)

5 Komatsu (USA)

6 Philippines Power Barrage 106 (Philippines)

7 IDP pumps Taiwan

8 CNC pump parts (Yemen)

9 Nasa pumps (Yemen)

List Of Countries :
